1. ORGANIZATION

LiveWorld Incorporated (the “Company”) was incorporated in California on April 10, 1996 and reincorporated in Delaware in July 1999. In April 1999 the Company changed its name from LiveWorld Productions to Talk City, Inc. On May 8, 2001, the Company changed its name from Talk City, Inc. to LiveWorld, Inc. The Company’s principal business is to provide private label social network services for global brands enabling them to create and manage persistent, consistent brand engagement across the social media landscape. Our services and products include: strategy & management, moderation & insight services, and platforms (Facebook, distributed social networks, central community sites.) Our clients use these services to generate dialogue and relationships with and among their customers and other constituencies. Clients use these services for loyalty relationship marketing, customer support and business intelligence. .

2. INTERIM FINANCIAL STATEMENTS

The unaudited condensed interim financial information furnished herein reflects all adjustments, consisting only of normal recurring items, which in the opinion of management are necessary to fairly state our financial position, results from operations and cash flows for the dates and periods presented and to make such information presented not misleading. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted; nevertheless, the Company believes that the disclosures herein are adequate to make the information presented not misleading. Operating results for the three months ended March 31, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010 or future periods. The balance sheet, operating results, and statements of cash flows for the periods ended March 31, 2009, December 31, 2009, and March 31, 2010 were neither audited nor reviewed by an independent accounting firm and are subject to change upon such a review or audit being completed.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenues — The Company recognizes revenues in accordance with Staff Accounting Bulletin No. 104, “Revenue Recognition in Financial Statements” (“SAB 104”) when the following criteria have been met: persuasive evidence of an arrangement exists, the fees are fixed or determinable, no obligations remain, and collection of the related receivable is reasonably assured.

The Company has certain contracts which are multiple element arrangements and provide for several deliverables to the customer that may include service development, community set-up, on-line community hosting, on-line community management, moderation services, and consulting. Accordingly, these contracts are accounted for in accordance with Emerging Issues Task Force No. 00-21, “Revenue Arrangements with Multiple Deliverables” (“EITF 00-21”). EITF 00-21 requires that the Company assess whether the different elements qualify for separate accounting. Because the Company does not believe that service development and community set-up activities have value to the customer on a stand alone basis, this element does not qualify for separate accounting. Accordingly, fees received from service development and set-up activities are combined with the amounts allocable to the relevant undelivered item(s) within the contract. All other elements qualify for separate accounting and have objective and reliable evidence of fair value.

Revenues from service development and community set-up activities are deferred and are recognized ratably over the related development and service portions of the contract. Revenues from on-line community hosting, on-line community management, moderation services, and consulting are recognized as the services are provided.

Cost of Revenues — Cost of revenues is comprised of direct costs associated with the sales of online social network and community services to clients; the expense associated with the development, set-up and operation of communities, including expenses associated with server costs for hosting the communities, license fees for specified aspects of our platform used to develop the standard set-up for clients, as well as expenses associated with any custom development the client may desire; and the cost of providing moderators and any enhancements the client may request after the community has been set up. These expenses consist primarily of salaries, payroll taxes, benefits and related expenditures for development, set-up, additional add-ons, enhancements or upgrades, as well as, software license fees, hardware costs, and salary and related moderation expenses.

Deferred Revenues — Deferred revenues are the amounts associated with the initial service development and set-up of the community for our clients. These service development and set-up revenues are paid upfront but recognized ratably as the development and operational service contract is recognized.

Product Development — Product development expenses consist primarily of salaries, payroll taxes, benefits and related expenditures for technology, software development, project management and support personnel. Costs related to the development of new products and enhancements to existing products are charged to operations as incurred. Software development costs are required to be capitalized when a product’s technological feasibility has been established by completion of a working model of the product. To date, completion of a working model of the Company’s products and general release have substantially coincided. As a result, the Company has not capitalized any software development costs because such costs have not been significant.

Sales and Marketing — Sales and marketing expenses consist primarily of salaries, payroll taxes, benefits and related expenditures for sales and marketing, as well as the community management which are costs associated with account management and client services.

General and Administrative — General and administrative expenses are the consolidated expenses of the operations, facilities, finance, human resources, legal and other administrative functions. The expenses associated with these functions consist primarily of salaries, payroll taxes, benefits, professional fees, and related expenditures for our overall management and administration.

Earnings Per Share — Basic income or loss per share is computed using the net income or loss and the weighted average number of common shares outstanding during the period. Diluted income per share is computed using the net income and the weighted average number of common shares and dilutive potential common shares outstanding during the period. Potential dilutive common shares include, for some or all of the periods presented, outstanding stock options and warrants. The computation of diluted income per share does not assume conversion, or exercise of securities that would have an anti-dilutive effect on earnings. The dilutive effect of outstanding stock options and warrants is computed using the treasury stock method. As of March 31, 2009 there were 23,822,819 outstanding options and warrants to purchase shares of the Company’s common stock; and as of March 31, 2010 there were 23,786,681 outstanding options and warrants to purchase shares of the Company’s common stock.

The following table sets forth the computation of basic and diluted net income or loss attributable to common stockholders:

In thousands, except per share amounts	March 31,	
	2010	2009
Numerator:		
Net income (loss) attributable to common Stockholders	\$ (427)	\$ 21
Denominator:		
Weighted-average shares used to compute basic EPS	33,152	33,152
Effect of dilutive securities:		
Diluted common shares	----	5,455
Weighted-average shares used to compute diluted EPS	33,152	38,607
Net earnings per share:		
Basic	\$ (0.01)	\$ 0.00
Diluted	\$ (0.01)	\$ 0.00

4. STOCK-BASED COMPENSATION

Effective January 1, 2006, the Company adopted the fair value recognition provisions of FAS 123(R) “Share-Based Payment,” which is a revision of Statement of Financial Accounting Standards No. 123. FAS 123(R) supersedes Accounting Principles Board Opinion No. 25, “Accounting for Compensation Arrangements” and amends Statement of Financial Accounting Standards No. 95, “Statement of Cash Flow.” FAS 123(R) generally requires share-based payments to employees, including grants of employee stock options and other equity awards, to be recognized in the statement of operations based on their fair values. In addition, FAS 123(R) requires the benefits of tax deductions in excess of recognized compensation expense to be reported as a financing cash flow, rather than as an operating cash flow as prescribed under previous accounting rules.

Determining Fair Value

Valuation Method — The Company estimates the fair value of stock options granted using the Black-Scholes option-pricing model and a single option award approach.

Expected Term — The expected term represents the period the Company’s stock-based awards are expected to be outstanding and was determined based on historical experience with similar awards, giving consideration to the contractual terms of the stock-based awards, vesting schedules and expectations of future employee behavior as influenced by changes to the terms of its stock-based awards.

Expected Volatility — A volatility of 69% was used as an estimate of the expected future volatility of the Company’s common stock.

Risk-Free Interest Rate — The risk-free interest rate used in the Black-Scholes valuation method is based on the implied yield currently available on U.S. Treasury securities with an equivalent remaining term.

Expected Dividend — No dividends are expected to be paid.

Estimated Forfeitures — When estimating forfeitures, the Company considers voluntary termination behavior as well as analysis of actual option forfeitures.

The Company estimated the fair value of its stock options using the Black-Scholes option-pricing model, by using the following assumptions for the options granted during the three months ended March 31, 2010:

	Stock Options
Dividend yield	0%
Expected volatility	69%
Risk-free interest rate	2.19%
Estimated term	4 Years
Forfeiture rate	19%

A summary of the stock option activity is as follows:

	Shares Available for Grant	Options Outstanding	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (in thousands)
Balance as of December 31, 2009	9,610,631	20,018,744	\$ 0.14		
Granted	(150,000)	150,000	\$ 0.03		
Forfeited	20,000	(20,000)	\$ 0.25		
Exercised	----	----	\$ 0.00		
Balance as of March 31, 2010	<u>9,480,631</u>	<u>20,148,744</u>	<u>\$ 0.14</u>	<u>4.2</u>	<u>\$151</u>

The aggregate intrinsic value in the table above represents the difference between the exercise price of the underlying awards and the quoted price of our common stock for the options that were in-the-money as of March 31, 2010.

The 1996 Stock Option Plan (“1996 Plan”) provides for stock options to be granted to employees, independent contractors, officers, and directors. Prior to 2004, options were generally granted at an exercise price which approximated eighty-five percent (85%) to one hundred percent (100%) of the estimated fair market value per share at the date of grant, as determined by our Board of Directors. Since 2004, options have generally been granted at one hundred percent (100%) of their estimated fair market value per share at the date of grant, as determined by our Board of Directors. All options issued under the 1996 Plan and the 2007 Stock Option Plan (“2007 Plan”) have a term of ten (10) years, and generally have a vesting schedule such that they vest ratably over four (4) years, twenty-five percent (25%) one (1) year after the grant date and the remainder at a rate of 1/36 per month thereafter. As of December 31, 2005, all outstanding stock options were exercisable. The 1996 Plan expired in October of 2006 and was replaced by our 2007 Plan. Under the 2007 Plan, the number of shares authorized for grant is 9,480,631. As of March 31, 2010 there were a total of 20,148,744 outstanding options under the 1996 Plan and the 2007 Plan. As of March 31, 2010, there was approximately \$267,000 of total unrecognized compensation expense related to non-vested stock-based compensation arrangements granted under the 1996 Plan and the 2007 Plan, as well as, stand alone option grants. The cost is expected to be recognized over the next 2 years.

5. PROPERTY AND EQUIPMENT

Property, furniture and equipment consisted of the following items:

(\$ in thousands)	March 31, 2010	December 31, 2009
Computer equipment	\$ 2,284	\$ 2,275
Software	1,191	1,191
Furniture and fixtures	37	37
Leasehold improvements	23	23
Leased equipment	418	418
Accumulated depreciation	(3,741)	(3,683)
Property, furniture and equipment, net	<u>\$ 211</u>	<u>\$ 261</u>

The depreciation expense was approximately \$378,000 and \$59,000 for the periods ended December 31, 2009 and March 31, 2010, respectively.

Management's Discussion and Analysis of Financial Condition and Results of Operation.

Special Note Regarding Forward-Looking Statements

This report contains forward-looking statements. All statements other than statements of historical fact contained in this document are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only current predictions and are subject to known and unknown risks, uncertainties, and other factors that may cause our or our industry's actual results, levels of activity, performance, or achievements to be materially different from those anticipated by the forward-looking statements.

The following discussion and analysis should be read in conjunction with our financial statements and the notes to those statements included elsewhere in this quarterly report. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. Actual results may differ materially from those discussed in these forward-looking statements due to a number of factors, including those set forth in the section entitled "Risk Factors" contained in our 2007 Form 10-K.

The balance sheet, operating results, and statements of cash flows for the periods ended March 31, 2009 and 2010 and December 31, 2009 where neither audited nor reviewed by an independent accounting firm and are subject to change upon such a review or audit being completed.

Overview

We provide private label social network services for global brands enabling them to create and manage persistent, consistent brand engagement across the social media landscape. Our services and products include: strategy & management, moderation & insight services, and platforms (Facebook, distributed social networks, central community sites.) Our clients use these services to generate dialogue and relationships with and among their customers and other constituencies. Clients use these services for loyalty relationship marketing, customer support and business intelligence. Our services consist of the following products delivered on a complete end-to-end or modular basis:

Strategy & Management Services: Social Strategy & Community Relations Management Services include working with companies to develop a social strategy and social view of their brand aligned to business goals, creative, community content programming and client management services to help design, organize, manage, oversee and evolve the feature, content, and user participation aspects of an on-line community. We provide these services for sites using LiveWorld's application platforms, client or 3rd Party application platforms and on broad destination social networks such as Facebook.

Moderation & Insight Services: Moderation & Insight Services include content moderation, social engagement moderation and editorial moderation as well as overall moderation management and moderation reporting. Moderators are trained personnel that read and review user content for adherence to website guidelines, and take appropriate action when content violates those guidelines. Such action might include permitting, hiding (or deleting), or escalating such content to a supervisor. Moderation can also involve trained personnel

leading topical discussions, or selecting or editing site content for featured display. We provide Moderation Services for sites using LiveWorld's application platforms, client or 3rd Party application platforms and on broad destination social networks such as Facebook. When moderating 3rd Party or broad destination social networks. We utilize client or platform-provided moderation tools or LiveWorld's advanced moderation tools and systems, depending on the specific client's needs. We provide moderation in 70 country/language combinations

Platforms: We design, develop, host and manage private-label branded community applications, including Facebook Conversation Applications, LiveBar distributed social networking and our Community Center branded community sites. Application Hosting includes operating applications on our system infrastructure on behalf of our clients.

We offer our services to brand clients as well as marketing agencies. In 2006 we entered into a non-exclusive joint venture with WPP to market our products and services to WPP clients. Pursuant to this joint venture, WPP has the opportunity to earn warrants to purchase our common stock based on the joint venture's contribution to our total revenue. Although WPP is under no contractual obligation to introduce us to WPP clients, we believe our relationship with WPP provides us access to companies that need and embrace on-line social networks and community services. We further believe that this relationship enhances our overall market visibility and credibility. Our relationship with WPP is non-exclusive and we enjoy close working partnerships with other agencies such as Digitas and Beam Interactive.

Total Revenues

Our business is primarily based on building recurring revenue streams through the operation of private-label online social networks and communities for our clients. Our revenues are derived principally from two sources: (i) service development and set-up revenues, and (ii) operations revenues.

We define service development and set-up revenues as follows: Service development revenues are fees we charge for customizing the standard service we provide to our clients. Set-up revenues are fees we charge for setting up the services based on our standard menu of services provided; and we charge add-ons, or enhancements fees for any additional customized work the client requests after we have begun to provide services to our client. Development and set-up revenues are paid upfront but recognized ratably as the development and operational services are provided.

We define operation revenues as follows: Application hosting revenues are fees we charge for hosting client communities on our servers and these fees are generally based on pageviews per month; community management revenues are fees derived from services provided to the client on a monthly basis to manage the community and the community needs of the customer, generally involving a monthly minimum fee for a specified minimum volume of hours with any additional time being charged on an hourly rate; and moderation revenues are fees we charge our clients for moderating their community. These revenues are recognized monthly as the services are delivered.

Cost of Revenues

Cost of revenues is comprised of direct costs associated with the sales of online social network and community services to clients; the expense associated with the development, set-up and operation of communities, including expenses associated with server costs for hosting the communities, license fees for specified aspects of our platform used to develop the standard set-up for clients, as well as expenses associated with any custom development the client may desire; and the cost of providing moderators and any enhancements the client may request after the community has been set up. These expenses consist primarily of salaries, payroll taxes, benefits and related expenditures for development, set-up, additional add-ons enhancements or upgrades, as well as, software license fees, hardware costs, and salary and related moderation expenses.

Operating Expenses

Product Development. Product development expenses consist primarily of salaries, payroll taxes, benefits and related expenditures for technology, software development, project management and support personnel. Costs related to the development of new products and enhancements to existing products are charged to operations as incurred.

Sales and Marketing. Sales and marketing expenses consist primarily of salaries, payroll taxes, benefits and related expenditures for sales and marketing, as well as community management, which are costs associated with account management and client services.

General and Administrative. General and administrative expenses are the consolidated expenses of the operations, facilities, finance, human resources, legal and other administrative functions. The expenses associated with these functions consist primarily of salaries, payroll taxes, benefits, professional fees, and related expenditures for our overall management and administration.

Stock-Based Compensation. Stock-based compensation expenses include amounts related to the grant of options and warrants to employees and non-employee service providers.

Results From Operations

The following table sets forth our historical operating results as a percentage of total revenues for the periods indicated:

LIVEWORLD, INC. STATEMENT OF OPERATIONS

	March 31,	
	2010	2009
Total revenues	100%	100%
Cost of revenues	38	30
Gross Margin	62	70
Operating Expense		
Product development	26	21
Sales and marketing	29	22
General and administrative	23	22
Stock based compensation	5	4
Total operating expense	83	69
Income (loss) from operations	(21)	1

Three Months Ended March 31, 2009 and 2010

Total Revenues

Our revenues decreased from approximately \$2.6 million for the three months ended March 31, 2009 to \$2.0 million for the three months ended March 31, 2010, representing a decrease of approximately 21%. Revenues decreased primarily as a result of a decrease in the number of new client acquisitions, and reduction in projects from existing clients.

For the three months ended March 31, 2009, revenues from eBay comprised approximately 28% of our total revenues while for the three months ended March 31, 2010, revenues from eBay comprised 33% of our total revenues.

Cost of Revenues

Cost of revenues were approximately \$772,000, or 30% of total revenues for the three months ended March 31, 2009, and \$759,000 or 38% of total revenues for the three months ended March 31, 2010. The increase as a percentage of sales was primarily the result of the impact of fixed expenses in relation to the reduction in total revenues.

Operating Expenses

Product Development. Expenditures for product development were approximately \$548,000, or 21% of total revenues for the three months ended March 31, 2009, and approximately \$516,000 or approximately 26% of total revenues for the three months ended March 31, 2010. This represented a decrease in absolute dollars of approximately \$32,000, or 6% period-over-period. This decrease was driven by reducing our overall employee cost. We anticipate these costs to continue to decline, in absolute dollars, in the immediate future and then to stabilize over time.

The majority of our product development costs are personnel related. We are committed to our product development efforts however we expect product development expense will decline in absolute dollar terms in the near future and stabilize over time. Our product

development efforts may not result in additional new products and any new products may not generate sufficient revenues, if any, to offset the expenses.

Sales and Marketing. Sales and marketing costs were approximately \$564,000, or 22% of total revenues for the three months ended March 31, 2009, and \$589,000, or 29%, for the three months ended March 31, 2010 representing an increase of approximately \$25,000 or 4% period-over-period. The period-over-period increase in sales and marketing expenses were a result of our ramping up our sales and marketing efforts for 2010. We expect sales and marketing expenses to increase in absolute dollars as we look to add additional sales people and increase our marketing efforts in 2010.

The substantial majority of our sales and marketing expenses are associated with our ongoing community management services, which are the costs associated with the servicing of existing clients, as opposed to those costs derived from new business development. Expenses for sales and marketing activities to attract new clients were minimal. We expect sales and marketing costs to increase as we further develop our sales efforts of private-label online social network and community services to new clients. In addition, if our product development efforts are successful and new products or services are created, we may incur increased sales and marketing expense to promote these products or services to new and existing clients.

General and Administrative. General and administrative expenses were approximately \$561,000, or 22% of total revenues for the three months ended March 31, 2009, and \$460,000, or 23% of total revenues for the three months ended March 31, 2010. This represented a decrease in absolute dollars of approximately \$101,000, or 18% period-over-period. The decrease in general and administrative expenses period-over-period were related to the reduction in depreciation expense period-over-period. We do not anticipate any material reductions in general and administrative expenses in the immediate future, and as such we expect general and administrative expenses to remain flat in absolute dollars for the remainder of 2010.

Financial Condition, Liquidity and Capital Resources

Our total assets were approximately \$4.0 million as of December 31, 2009, and \$3.4 million as of March 31, 2010. This represented a decrease of approximately \$623,000 or 16% of total assets. Our cash and cash equivalents were approximately \$1.6 million as of December 31, 2009 which decreased by approximately \$119,000 or 8% to the cash and cash equivalents balance of approximately \$1.5 million as of March 31, 2010. This decrease was primarily due to the reduction in overall revenues in the period. We believe accounts receivable balances will fluctuate with the levels of new client acquisition and enhancement activity.

Accounts receivable was approximately \$1.1 million as of December 31, 2009, and \$719,000 as of March 31, 2010. This represented a decrease of approximately \$412,000 or 36%. The reduction in accounts receivable was a result of a reduction in new client acquisitions and fewer projects from our existing client base.

Our property and equipment balance was approximately \$261,000 as of December 31, 2009, and \$211,000 as of March 31, 2010. This represented a decrease of approximately \$50,000 or 19% period-over-period. For the remainder of 2010 we do not anticipate a material increase in capital spending therefore we believe this account will continue to decrease in the short term.

Our current liabilities were approximately \$1.3 million as of December 31, 2009 and \$1.0 million as of March 31, 2010. This represented a decrease of approximately \$269,000 or 21% period-to-period. This decrease was due to the reduction in deferred revenues from approximately \$675,000 as of December 31, 2009 to \$280,000 as of March 31, 2010, or a decrease of approximately \$395,000. This decrease was partially offset by the increase in accounts payable for the period. Our accounts payable increased from \$111,000 for the period ended December 31, 2009 to \$207,000 for the period ended March 31, 2010. We anticipate our liabilities to fluctuate with the levels of new client acquisition and enhancement activity.

Our current assets, which are made up of cash and cash equivalents, accounts receivable, and prepaid expenses as of March 31, 2010 were approximately \$2.3 million while our current liabilities which are made up of our accounts payable, accrued liabilities and current portions of long-term liabilities were approximately \$1.0 million. This represented a positive working capital position of approximately \$1.3 million, which was a decrease of approximately \$299,000 from the period ended December 31, 2009. Additionally our current assets are approximately \$1.3 million greater than our total liabilities as of March 31, 2010, which represented a decrease of approximately \$277,000 from the period ended December 31, 2009. We feel we have sufficient working capital to fund operations for the fiscal year 2010.

For the three months ended March 31, 2010 we had negative cash flows of approximately \$119,000 while for the three months ended March 31, 2009 we had positive cash flows of approximately \$68,000 a decrease of approximately \$187,000. The primary reason for this reduction in cash was the reduction in new client acquisitions and fewer projects from our existing client base.

We believe that the combination of cash balances, cash flow from operations, and available credit facilities will be sufficient to satisfy cash needs for the current level of operations and planned operations for the rest of 2010.

In the future, we may strategically seek to take advantage of opportunities in the equity and capital markets to raise additional funds in order to take advantage of opportunities that may become available to us, including expansion of operating activities and acquisition of businesses, products or technologies, or otherwise to respond to competitive pressures. Capital scenarios may include but are not limited to public stock issuance, private investment rounds, merger or acquisition and/or privatization. There can be no assurance that we will be able to raise additional capital on favorable terms or at all.

Our non-GAAP net income / (loss) or earnings before interest, taxes, depreciation and amortization, and non-cash stock-based compensation (“Adjusted EBITDA”), was a loss of approximately \$255,000, or 13% of total revenues for the three months ended March 31, 2010 as compared to an Adjusted EBITDA net income of approximately \$239,000, or 9% of total revenues for the three months ended March 31, 2009. The decrease in Adjusted EBITDA of approximately \$494,000 was primarily due to the period-over-period reduction in the total revenues offset by reduced operating expenses.

We define Adjusted EBITDA as net income or (loss) excluding net interest income, income taxes, depreciation and amortization, and non-cash stock-based compensation expense. The following table reconciles Adjusted EBITDA to the reported net income or loss:

LIVEWORLD, INC.
RECONCILIATION OF ADJUSTED EBITDA TO NET INCOME / (LOSS)
(In thousands)

\$ in 000's	Three Months Ended March 31,	
	2010	2009
Reported net income (loss)	\$ (427)	\$ 21
Depreciation and amortization	59	121
Stock-based compensation	95	95
Interest income, net	10	---
Provisions for income taxes	8	2
Adjusted EBITDA	\$ (255)	\$ 239

Adjusted EBITDA does not represent funds available for management’s discretionary use and is not intended to represent cash flow from operations. Adjusted EBITDA has limitations and should not be construed as a substitute for net income (loss) or as a better measure of liquidity than cash flows from operating activities, which are determined in accordance with United States generally accepted accounting principles (“GAAP”) and therefore Adjusted EBITDA should be used as supplemental information. Adjusted EBITDA excludes components that are significant in understanding and assessing our results of operations and cash flows. In addition, Adjusted EBITDA is not a term defined by GAAP and as a result our measure of Adjusted EBITDA might not be comparable to similarly titled measures used by other companies.

However, Adjusted EBITDA is used by management to evaluate, assess and benchmark our performance as a service provider, net of any expenses or income not related to the delivery of our services. We believe understanding the costs directly related to the delivery of our services is beneficial to the management of the company. Adjusted EBITDA is relevant and useful information, which is often reported and widely used by analysts, investors and other interested parties as a measurement of the delivery of a product or service. Accordingly, we are disclosing this information to permit a more comprehensive analysis of our operating performance, to provide an additional measure of performance and liquidity and to provide additional information with respect to our ability to meet future debt service, capital expenditure and working capital requirements.

Our adjusted EBITDA financial information is also comparable to net cash provided by operating activities. The table below reconciles Adjusted EBITDA to the GAAP disclosure of net cash provided (used in) operating activities:

LIVEWORLD, INC.
RECONCILIATION OF ADJUSTED EBITDA TO NET CASH PROVIDED BY (USED IN) OPERATING ACTIVITIES
(In thousands)

\$ in 000's	Three Months Ended March 31,	
	2010	2009
Net Cash Provided by (used in) operating activities	\$ (77)	\$ 179
Interest expense, net	10	----
Taxes	8	2
Equity in net income (loss) of unconsolidated affiliate	(5)	6
Changes in accounts receivable	(412)	(262)
Changes in other assets	(38)	3
Changes in accounts payable	(96)	(2)
Changes in accrued liabilities	(41)	19
Changes in deferred revenues	396	294
Adjusted EBITDA	<u>\$ (255)</u>	<u>\$ 239</u>

The reconciliation of Adjusted EBITDA to net cash provided by (used in) operating our Company should be viewed as supplemental information to our statement of cash flows and not as a substitute.
